- 6 printed inserts
- 3 bags of confetti
- 2 glitter glues
- 4 tubes of dry glitter
- alphabet sticker sheet
- assorted gems
- funnel
- instruction sheet

Design Your Own Photo Water Globe!

With this kit you can create personalized, sparkling water globes that display your favorite photos & memories! They make great gifts for friends or to keep for yourself. It's as easy as 1-2-3!

1 Fill it!

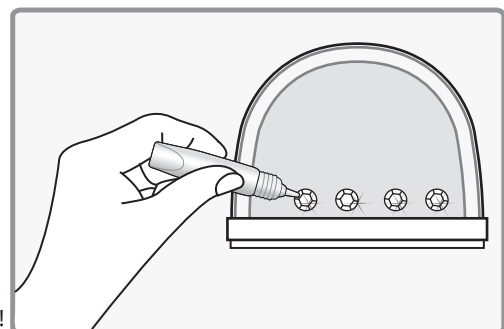

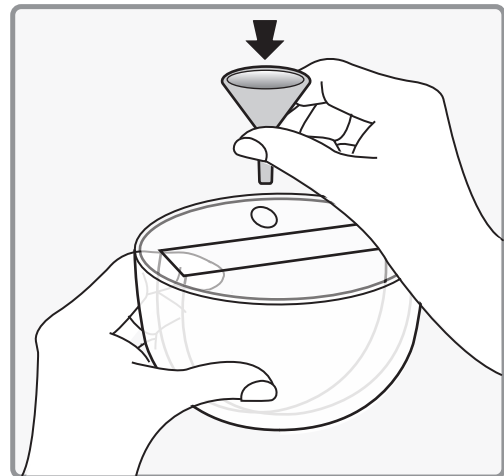

Lay out the water globe, rubber stopper, dry glitter tubes, confetti bags & funnel in front of you. Remove the base of the water globe & locate the hole in the bottom of the globe. Use the funnel to fill your water globe. Make sure to pour in the dry glitter & confetti before adding the water. For best results, use distilled bottled water. Once you finish filling the water globe, plug hole using the rubber stopper. Insert your favorite photo and/or the included printed inserts to personalize. Replace the base of the water globe.

2 Decorate it!

Use a towel to make sure your water globe is completely dry before you begin decorating. Next, plan out your designs. Use the alphabet stickers to personalize the water globe with your name or fun phrases! Add lots of sparkle with gems & glitter glue. Use the glitter glue to apply the gems. Let gems & glitter glue dry completely.

3 Display it!

Your water globe is ready to be displayed in your room or given as a gift! Shake it up to see your creation sparkle. You can switch out the images in your water globe whenever you want by removing the base.

Now you have your own Photo Water Globe!

Note: To keep your water globe fresh, change the water periodically!
