3 sand bottles  
3 sand charms  
3 necklace closures  
3 ribbons  
4 bags of colored sand  
2 bags of glitter  
plastic funnel  
instructions

### Create Dazzling Sand Art Designs!

With this kit you can make shimmering necklaces for you and your friends using sand art charms! You can also make sparkling sand art bottles to decorate your room! Use your imagination by choosing color combinations that are bright, shiny and fun.

### REMEMBER : POUR SAND SLOWLY

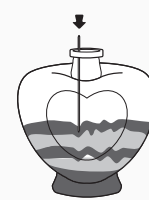

If you shake the bottles while filling them the colors will mix together and the lines won't be as sharp. If you want sharp, defined lines between your sand layers, pour slowly and don't jiggle your bottle until it's completely filled and the stopper is in place.

### DESIGN TIPS

There are many ways to make your sand art designs unique. Here are some fun tips.

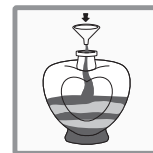

Try slightly tipping your bottle to make slanted layers with one side thick and one side thin.

Use a toothpick to push into the sand. This will create peaks and valleys in the sand design.

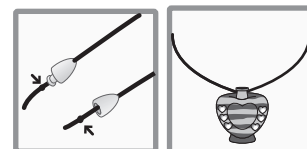

- 1** Use the funnel to pour sand and glitter into the bottle of your choice. Layer different colors of sand & glitter for an exciting design.

- 2** Make sure your bottle is filled completely so the sand and glitter will not shift around. When your design is complete, press the stopper firmly into place.

- 3** **If making a sand charm:** Choose a ribbon and string the sand charm onto the ribbon. Then, thread each end of the ribbon into the two parts of the closure. Make sure the two pieces are facing out so they can be snapped together. Make a knot in each end to hold the closure on. Your sparkling sand charms are ready to wear and share!

Now you have your own Glitter Sand Art designs!
