52 alphabet beads  
6 butterfly charms  
5 plastic jewels  
2 pairs earring clips  
4 necklace closures  
1 key ring  
beading elastic  
instruction sheet

## Create Personalized Crystalline Jewelry!

With this kit you can create cool crystal styles you will love to wear & share with friends! Use the alphabet beads to display personalized messages on your necklaces, bracelets, earrings & more!

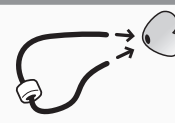

## DESIGN TIPS:

### making PENDANTS

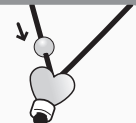

Beads can be made to hang down as pendants. Here's how to make one.

Choose your beads to make a pendant. Thread the bead that will be on the bottom of the pendant onto the elastic.

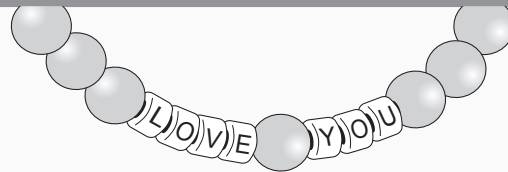

Thread the next bead through both ends of the elastic.

Beads can now be threaded through each side of the elastic.

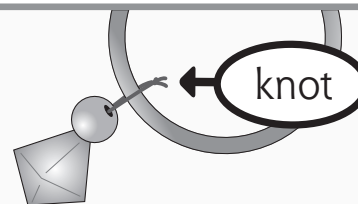

### PERSONALIZING

Use the alphabet beads to spell messages or names on your creations.

### making a KEYCHAIN

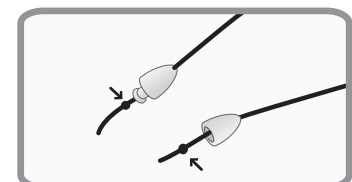

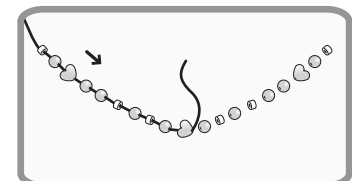

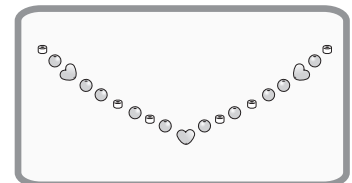

To add beads to a key ring, use the elastic cord to string through the beads. Then, string the elastic through the key ring and knot.

**1** Decide which piece of jewelry you are going to make, then lay out the beads in a pattern you like.

**2** String the beads on the elastic in the order you laid them out. Use the tips above when creating your designs.  
*Hint: Don't cut the cord until you have strung the beads. After stringing, tie the cord, then cut the cord.*

**3** If you made a necklace, thread each end of the cord into the two parts of the closure. Make sure the two pieces are facing out so they can be snapped together. Make a knot in each end to hold the closure on.

Now you have your own Gem Jewelry!
