

Message Mania

Create your own message boards!

With this kit you can design your own stylish, foam magnetic message boards to write messages! Stick the flower magnets to the boards to hang your favorite photos. Message boards are a great way to decorate your room or locker.

For All of the Message Boards:

1 Decide which message board you want to create. Lay out the pieces for it as shown below.

2 All of the pieces have a self-adhesive backing. Pull the adhesive off and stick into place.

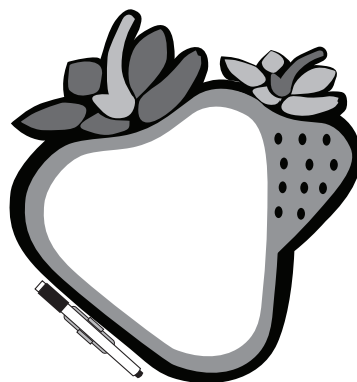

Hint: Lay out your design before pulling the adhesive backing off so that you can move pieces around if needed.

3 Use the glitter glue to add extra sparkle wherever you want. Let dry.

4 Finally, choose where you want to stick the marker clip. Pull the adhesive from the marker clip and stick to the back. Put a dry erase marker in the clip and hang your board. Use the flower magnets to post notes or pictures on your message board.

5 **To Hang your Board:** The heart-shaped board has a hanger on the back to hang by tying a ribbon through it and hanging it on a nail in the wall. The strawberry and flower boards should be hung using the self-adhesive magnet strips. These are great for hanging in lockers!

Now you have your own Message Boards!

IN THIS KIT

3 foam magnetic message boards

self-adhesive foam pieces

6 flower magnets

3 mini dry erase markers with self-adhesive clips

2 tubes of glitter glue

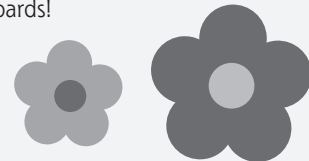

ribbon

self-adhesive magnet strips

instruction sheet

Flower Magnets

Remove the adhesive backing from the dots and stick them to the center of the flowers as shown. Then, remove the adhesive backing from the magnets and stick to the backs of the flowers. Now they are ready to stick to your magnetic message boards!

Design Tip

The foam edges and add-ons work well as a bulletin board. Use pushpins (not included) to hang your notes!
